

Daily cleaning and sanitising procedure

- To make up sanitiser solution: Dissolve 1 heaped teaspoon of Frostyclean Sanitiser in 2 litres of water
- Switch the Soft-Serve machine to 'wash' and remove the mix feed tube and/or pumps assembly from the hopper, wash, brush clean and then rinse them under running water and place in Frostyclean sanitising solution.
- Run machine for 10 minutes on 'wash' in order for Soft-Serve to defrost and go to a liquid state.
- Drain out any leftover Soft-Serve mix in the machine into a bucket
- Cover bucket containing Soft-Serve mix with lid or plastic wrap and place in refrigerator - DO NOT FREEZE.
- Switch Soft-Serve machine to 'off' position.
- Pour 3 jugs of water into the machine, switch to 'wash' again for 15 seconds and drain, then switch Soft-Serve machine to 'off' position.
- Pour into the hopper 3 jugs of water (cool or warm - not hot) each containing 1 heaped teaspoon of Frostyclean Sanitiser, run for 5 minutes on 'wash'.
- While on wash, wipe the hopper with disposable towelling dipped in warm sanitiser water to remove any visible fatty deposits in the hopper, then drain.
- Switch Soft-Serve machine to the 'off' position. Brush the drainage tube connecting the barrel and the hopper with the correct size brush and dismantle.
- Brush clean then rinse all removable parts under tap before immersing in Frostyclean Sanitiser; including faceplate, gaskets, drip tray and rear drive shaft.
- Brush clean the barrel with barrel brush then wipe barrel, hopper and hopper lid with clean towel soaked in Frostyclean Sanitiser. Rinse towel in sanitiser and repeat process until entire machine has been cleaned down.
- Leave to air dry. Before reassembling, wash and sanitise your hands and the lubricant tube.
- Lubricate all O-rings and seals according to the operator's manual and reassemble.
- Make up one jug of sanitiser water, pour into machine and switch to 'wash' for 5 minutes, then drain.
- Your machine is now ready for use.
- Next time you use the machine, drain the first cup of Soft-Serve out of the machine to purge any leftover sanitiser water from the barrel.
